AUS Holdings look to include as many Aboriginal touch points as possible within the supply chain in every given scope of work. By engaging local Aboriginal people and businesses, we believe the group achieves sustainable economic opportunities that have a positive impact to the communities and its Indigenous people.

AUS is a commercial enterprise whose social objectives hold equal weight to our financial outcomes. AUS strongly believe that the more we can contribute to communities through providing contracting, employment and or social initiatives, the greater the long term success prospects are of the group.

AUS is a vehicle where Government and Private sectors can contract with Aboriginal people.

Summary

AUS Traffic Management (ATM) is a traffic management company with the capacity to provide traffic management services throughout all regions of Western Australia and the Northern Territory.

The company is focused on delivering quality cost effective

Traffic Management services to clients by providing them with:
